Rockwater Energy Solutions Named Water Management Company of the Year in the Midcontinent Region

HOUSTON – October 29, 2014. Rockwater Energy Solutions received the award for Water Management Company of the Year at the 2014 Oil & Gas Awards for the Midcontinent region. The company was recognized for its outstanding achievements in 2014 with regard to operational excellence, innovative water management technology, as well as health, safety and environmental stewardship.

“We are truly honored to receive this award for our commitment to our customers and mission as a company,” said Clif Price, Region Vice President for the Rockwater Midcontinent team. “At Rockwater, we continuously strive to maximize oil and gas production, minimize costs, and reduce the environmental footprint of our customers through our water management solutions.”

“Operators across the country are recognizing our ability to create water solutions that help improve their profitability,” noted Larry O’Donnell, Chairman, President and CEO of Rockwater. “Our team in the Midcontinent region excels at listening to our customers and developing solutions. I am proud of our Midcontinent team’s commitment to operational excellence and safety that has earned them this recognition.”

About Rockwater

Rockwater Energy Solutions, Inc. provides extensive water and fluids management services and environmental solutions to the oil and gas industry by customizing cost-effective solutions associated with the full water life cycle. Rockwater offerings include water transfer by pipe; completion, stimulation, and production chemicals; water conditioning for reuse; proppant, guar, and additives for fracturing; flowback and well testing services; fluids transportation and storage; and logistics and distribution services to support its product and service offerings. Rockwater is headquartered in Houston, Texas, and has about 3,000 employees serving every major shale basin in North America.
