Rockwater Appoints Holli Ladhani President & CEO; David Nightingale as EVP & COO; and Larry O'Donnell continues in his role as Chairman of the Board

HOUSTON – June 5, 2015. Rockwater Energy Solutions, Inc. (“Rockwater”), a water management and chemical technologies solutions provider to the oilfield industry, announced today that Holli Ladhani, former Executive Vice President and CFO, and most recently Executive Vice President of Rockwater’s Chemical Technologies segment, has been appointed President & CEO of Rockwater, as well as a member of the Board of Directors.

Larry O’Donnell, Chairman of the Board commented, “Holli has consistently demonstrated first-class leadership skills as she has progressed through roles of ever increasing responsibility. She is highly regarded throughout Rockwater as well as by our customers, and exemplifies Rockwater’s Core Values. The Board and I are delighted to have the opportunity to appoint such a deserving and qualified person to succeed me in leading our Company going forward.”

David Nightingale, former Executive Vice President of Rockwater’s Water Management segment, has been appointed EVP & COO of Rockwater. David joined Rockwater as SVP-Water Management in April, 2012, after serving in a variety of management roles within the oilfield services sector for his entire 35 year career.

Holli Ladhani commented, “With David’s wealth of operations knowledge and relentless focus on our customers, he will be invaluable to me and the Company as he leads our Water Management and Chemical Technologies service offerings.”

Larry O’Donnell stated, “I have a daughter who has had over 30 years of challenging medical issues, and has recently had additional medical set-backs. My family is the most important thing in my life, and I have reached a point that I feel I must spend what time is still available for me to spend with my daughter and assist my wife with our daughter’s medical conditions. While I will miss the day to day interactions that I have so much enjoyed with so many of the Rockwater team members, I will continue to serve as Chairman of the Board and work closely with the Board to support Holli and the management team as they seek to lead the organization to even greater heights.”

Larry O’Donnell continued, “I want to thank each and every member of the Rockwater Team for being such incredible colleagues to me. I have been very honored to serve alongside of you over the past 4½

years. You have helped us create a rock-solid culture of Respect, Integrity, Safety and Excellence and I know that great things lie ahead for us at Rockwater. “

About Rockwater (www.rockwaterenergy.com)

Rockwater Energy Solutions, Inc. provides extensive water and fluids management services and environmental solutions to the oil and gas industry by customizing cost-effective solutions associated with the full water life cycle. Rockwater offerings include water transfer by pipe; completion, stimulation, and production chemicals; water conditioning for reuse; proppant, guar, and additives for fracturing; flowback and well testing services; fluids transportation and storage; and logistics and distribution services to support its product and service offerings. Rockwater is headquartered in Houston, Texas, and has about 2,100 employees serving every major shale basin in North America.
